

An update

ZAMBIA

Country Leader Harry Tembo

Forums and Response

Zambia began the year with a Forum on January 25th which was attended by 34 leaders in the village town of Kafue in the western part of the country. The leaders hailed the simple, meticulous approach to youth ministry offered in the Jesus-Focused Youth Ministry book. They allocated themselves to different regions in order to reach the youth which is approximately 67 percent of the total Zambian population (16 million people).

Harry Tembo conducted another Forum in Mansa (another western region of the country). There were 31 youth leaders in the forum from 6 denominations. Since that Forum, those leaders have formed 7 discipleship groups and 59 youth have been saved!

Continuing Work

In early August, Zambia successfully conducted an Eagles Summit to train more Eagle Leaders, or leaders who disciple in specific regions. Jesus-Focused Youth Ministry work will continue with more Forums planned for the fall, and the continued multiplication of people following Jesus.
